

India Electronics Expo 2026 (INDELXPO), 23-26 March 2026, New Delhi

ESC is organizing the 11th edition of the India Electronics Expo (INDELXPO), scheduled to be held from March 23-25, 2026 in New Delhi, India. This flagship event will once again spotlight India's growing capabilities in electronics manufacturing, innovation, and technology for a global audience.

India's electronics sector is undergoing rapid transformation, driven by rising domestic demand, global supply chain diversification, and robust policy support. The Government of India has launched several strategic initiatives—including the Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors (SPecs) and the Electronics Components and Manufacturing Scheme (ECMS)—to strengthen the ecosystem and position India as a trusted global hub for electronics design and manufacturing.

Building on the success of previous editions—including the 10th edition in 2025, which welcomed over 600 international buyers from 80+ countries—INDELXPO has emerged as a premier platform for connecting Indian electronics manufacturers with global buyers, distributors, and decision-makers.

Key Highlights of India Electronics Expo 2026:

A comprehensive showcase of Indian expertise in consumer electronics, telecom devices, medical electronics, security systems, solar-powered products, and more

A wide range of electronic components including semiconductors, active and passive components, and interconnect solutions

Emerging technologies such as IoT, drones, smart city solutions, embedded systems, and electronic manufacturing services

The expo offers overseas buyers a unique opportunity to explore high-quality, competitively priced products and cutting-edge solutions across the electronics value chain.

The event is supported by the Ministry of Commerce & Industry, Government of India, under the Market Access Initiative (MAI) scheme. Selected overseas delegates may be eligible for the Hosted Buyers Program, which offers assistance to qualified buyers with strong business potential.
